

Why is the REAL truth about Second Hand Smoke such a problem?

Tobacco Control
doesn't want to hear it,...

Legislators
refuse to acknowledge it,...

The Media
won't report on it,...

Could it be,...

Millions in tax dollars thrown at bloated "non-profit" Tobacco Control agencies?

An easy vote getting position that guaranty's fat campaign contributions?

The potential loss of tens of millions in pharmaceutical company advertising?

Are Smoking Bans really in "the interest of public health",.....or something else?
